

Alphabet Sound Dominoes

Suitable age: Preschool up

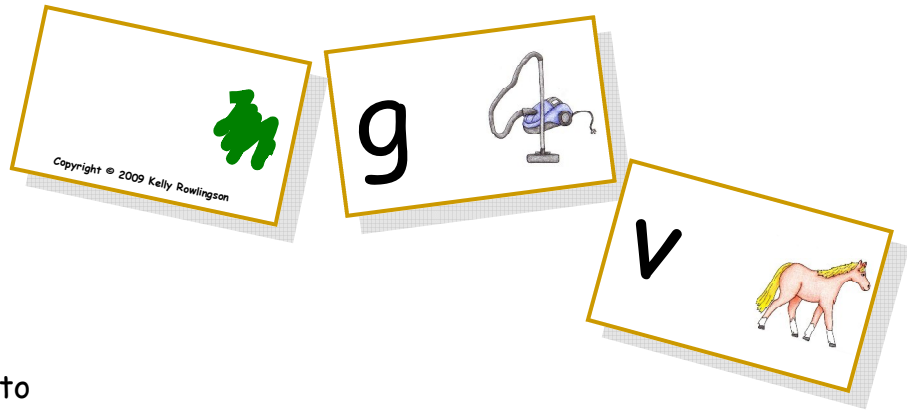

Prior knowledge required:

Alphabet sounds preferable but not essential

Format: PDF

Pages: 4

Colour/Black and White: Colour

The Alphabet Sound Dominoes is easy to play. A child must firstly isolate the initial sound of the object/animal pictured then look through their cards for the corresponding letter/symbol.

The cards fit together to form a long line.

This resource is wonderful for a child just learning their alphabet sounds (and how to isolate the initial sound of a spoken word), but also for older children who could do with revising their alphabet sounds.
