

Alphabet Sounds Initial Sound Memory Game

Format: PDF

Pages: 8

Colour/Black and White: Colour

This resource has been designed to give children practice at the alphabet sounds.

To play this memory game all of the participants take it in turns and turn over two memory game cards. They need to find pairs (matching the letter with a picture of an animal/object starting with that sound). If they are successful in finding a pair they are allowed another turn, but if they are unsuccessful it becomes the next child's turn.

A storage box is provided also.
