

# Flashcards - Division (8, 9, 11 and 12)

**Format:** PDF

**Pages:** 17

**Colour/Black and White:** Colour

The flashcards contained in this file have been designed to give children practice at the 8, 9, 11 and 12 divisions.

Each of the flashcards are double-sided (equation on one side and answer on the other).

We recommend that the flashcards are cut out and laminated (if the cards will be used by lots of children) and then put onto a filing ring.

A great little resource.
